

What is tBORA?

This token is matched 1 on 1 with the BORA token and is created for the BORA ecosystem operation.

In contrast BORA tokens managed through the KLAYTN Network, tBORA is supervised by the BORA Network and distributed inside of the BORA PORTAL platform ecosystem.

As a utility token, tBORA is used within the BORA PORTAL platform that is payable to purchase NFT, participate in DeFi, and use services provided by BORA COUNCIL, and SWAP.

When you take part in various blockchain services provided by BORA PORTAL, you will earn tBORA as a reward which can be traded in exchanges and DEX for the benefit.

What makes tBORA special

1. Can be utilized as a bridge token with a hybrid structure for using public blockchain and private blockchain together.
2. Issued in a private blockchain, it's fast, secure, and available as a utility token by swapping with various game tokens.
3. As a key currency of NFT stores, tBORA is payable for NFT product transactions such as games and entertainment.
4. You can earn rewards through DeFi services provided by BORA PORTAL such as staking and full deposit.
